

Institute of Health Management Research

MBA Hospital and Health Management

Batch-23 (2018-2020)

Hospital Management

Hospital Management Information System

Term Examination

October 2019

Time - 3 Hour

MM-70

The question paper contains 1 printed page.

All Questions Are Compulsory, and All Questions carry equal marks (14 Marks each)

Discuss on the following topics:

1. How would you justifiably select the architecture of an HMIS (Hospital Management Information System)?
2. Elaborate on the essential elements in the structure of an HMIS for a 10-bed hospital and those for a 1000-bed hospital.
3. Elucidate the optimal organization of the HMIS for optimizing the workflows of a hospital.
4. How to ensure data quality for accurate information collection and processing from an HMIS?
5. Discuss the possibilities of HMIS for decision support.
